

**IN THE SPECIFICATION**

Page 7, before "DESCRIPTION OF THE PREFERRED EMBODIMENTS," insert new paragraphs:

Fig. 12 is a schematic view of lights deployed in a line shape.

Fig. 13 is a schematic view of a truncated pyramid.

Add a new paragraph at the bottom of page 11:

Fig. 13 shows the trapezoidal face of a truncated pyramidal shape of cream solder as seen in elevational view.

Amend the last full paragraph on page 18:

Although in the above described embodiment, the method of using the lighting means 3 in which the LEDSs are disposed in the form of a ring has been exemplified, a lighting means in which the LEDs are disposed in line as in Fig. 11(a), and Fig. 11(b), and Fig. 12, showing a lighting means 3 in line shape, is also capable of inspecting the shape of the cream solder with the non-soldering portions 1b removed like the previously-described cases.
